A fresh graduate with a Bachelor's Degree in Informatics Engineering from Budi Luhur University, awarded with a Magna Cum Laude distinction. I am driven by a strong passion for self-development and possess diverse experience across multiple fields. I have been involved in various projects as a Web Developer, Game Developer, and Data Analyst, which have strengthened my technical skills, critical thinking, and deep understanding of user needs. Additionally, my experience as a Barista has enhanced my communication skills, teamwork, and discipline in fast-paced environments. This combination of academic background and hands-on experience makes me an adaptable, fast learner who is ready to contribute with responsibility, integrity, and a commitment to excellence.

Experience

PT. Impactbyte Teknologi Edukasi (Skilvul) - **Jakarta (intern), DKI Jakarta**   Feb 2023 - Jun 2023

Game Development Intern

An edtech company that provides a platform to learn coding and digital skills in a practical and affordable way for everyone.

- Developed educational games using Unity and the C# programming language.
- Assisted in designing gameplay flow, game mechanics, and user interface elements.
- Created and managed basic visual assets, including animations, sprites, and sound effects.
- Implemented interactive features aligned with Skilvul's digital learning objectives.
- Collaborated with design and content teams to deliver engaging and educational game experiences.
- Performed testing and debugging to ensure optimal performance across devices.
- Completed a final project titled "Cook & Plant", an educational game that combines cooking and farming elements to promote sustainability and healthy living concepts.

Kopi Kenangan - **Jakarta, DKI Jakarta**   Nov 2022 - Jun 2023

Part Time Barista

Kopi Kenangan is an Indonesian grab-and-go coffee company that serves high-quality beverages at affordable prices.

- Prepared various coffee and non-coffee beverages following standard operating procedures (SOP).
- Provided friendly, fast, and professional customer service.
- Handled cashiering duties accurately using the POS system.
- Performed daily stock opname to ensure sufficient inventory of ingredients and supplies.
- Carried out store opening and closing tasks, including cleanliness, stock checks, and operational setup.
- Collaborated with team members to maintain efficiency and customer satisfaction during operational hours.

Valugard - **Ambon, Maluku**   Oct 2019 - Dec 2019

Operational Staff

Valugard is a company specializing in automotive protection services, including vehicle coating and detailing.

- Performed vehicle coating for paint protection.
- Managed data entry of incoming and outgoing cars in the service area.
- Assisted daily operations through team coordination.
- This experience helped me understand the value of work discipline, responsibility, and teamwork.

Education

BudiLuhur University - **South Jakarta, DKI Jakarta**   Sep 2020 - Aug 2024

Bachelor of Informatics Engineering, 3.86 / 4.00

- Graduated with Magna Cum Laude honors
- Actively involved in campus organizations, enhancing leadership, teamwork, and communication skills
- Selected participant of MSIB Kampus Merdeka – Game Development Internship at Skilvul, focusing on Unity and C# for educational game development
- Participated in various campus events, including competitions and webinars

Organization

Ikatan Mahasiswa Bonapasogit (IMABA) - **South Jakarta, DKI Jakarta**   Sep 2020 - Apr 2022

Public Relations Officer

IMABA (Ikatan Mahasiswa Bonapasogit) is a student organization at Budi Luhur University that brings together out-of-town students from various regions across Indonesia.

- Actively involved in uniting out-of-town students from across Indonesia through cultural, educational, and social programs.
- Managed communication strategies to promote events and maintain strong relationships among members, alumni, and external partners.
- Contributed to organizing gatherings and support initiatives that helped new students adapt to campus and urban life in Jakarta.

Projects

- **Cinema Ticket App - Group Project** 🔗 (2022): Cinema Ticket App – Group project in Mobile Programming course. Enables users to browse films, select seats, and manage bookings through a simple and intuitive mobile interface.
- **The Marketing System Web App** 🔗 (2022): Web-based app for managing marketing, products, and transactions. Built with responsive UI and modular structure to support accurate daily business operations.
- **Sustainable Restaurant Simulation Game (Cook & Plant)** 🔗 (2023): A 3D strategy game developed during the MSIB program at Skilvul, focusing on restaurant management and food waste control. Players must run a successful business while promoting sustainability through efficient planning and resource use.
- **IoT-Based Smart Home System for Cafe Operations** 🔗 (2024): A final-year project implementing an IoT system using ESP32 and DHT11 sensors to monitor room temperature and control lighting via a web interface. Applied at Uchu Boba Café to address operational inefficiencies and improve storage conditions for ingredients.

Certificates

- **Mini Course – Data Analytics by RevoU** 🔗 (2025): Completed an introductory training in data analytics, covering essential analytical skills and tools used in the industry.
- **Getting Started with Java Programming – Dicoding** 🔗 (2025): Completed a beginner-level course focused on Java fundamentals aligned with industry standards. Gained practical experience in writing Java applications using IDEs like IntelliJ IDEA and online platforms such as Replit.
- **C# Basic Programming** 🔗 (2023): Completed a foundational course in C# programming, designed for beginners to understand core syntax and logic building.
- **Game Development Internship – Kampus Merdeka x Skilvul (MSIB Batch 4)** 🔗 (2023): Completed an intensive 5-month internship program focused on game development, under the Kampus Merdeka – MSIB initiative
- **Barista Training – Kopi Kenangan** 🔗 (2023): Completed hands-on training focused on coffee brewing techniques, customer service, machine handling, and daily café operations.
- **Basic Computer Algorithm Competency – Universitas Budi Luhur** 🔗 (2021): Certified in foundational algorithmic logic and problem-solving, including flowcharts, loops, and conditional structures using basic programming techniques.

Skills

- **Soft Skills**: Communication, Teamwork, Problem Solving, Adaptability, Time Management, Critical Thinking, Leadership, Initiative, Attention to Detail, Empathy.
